The internet has many useful education websites to help with [lesson planning](#) and teaching children to be Cybersmart.

- [Education Network Australia](#) - Gateway to resources and services for education and training. This is a very comprehensive site for teachers, with relevant content for parents and students.
- [Sofweb](#) - Portal for education sites broken into sections for parents, student and teachers. Contains a collection of great links by subject area.
- [Schoolworld](#) - Global classroom for k-12. Really good resource section with links broken into subject areas for kids and teachers. Schoolworld is an American initiative, but this is the Australian site.
- [Student Net](#) - Major education portal with resources and links in subject areas divided into k-6 and 7-12. Users need to register.
- [Achieve Online](#) - Education portal with content for students and teachers, links and resources divided by subject areas.
- [ABC Learning](#) - ABC Learn Online is the ABC's gateway to education sites with content in variety of subject areas and search feature.
- [Encarta](#) - Online encyclopaedia of information.
- [Questacon](#) - Questacon is The National Science and Technology Centre. The site is divided into sections for kids, teens and teachers. Science resources, experiments, links sorted by science area.
- [Science](#) - Double Helix Club is part of the CSIRO web site for over 10 year olds. Contains Science information, a magazine, experiments, and a section for teachers.
- [Sciencetriffic](#) - Sciencetriffic is the CSIRO's science site for under 10 year olds. Good list of links by science area with resources for teachers.
- [Scholastic](#) - Web site for Scholastic Publishing Company with a fun and education kids area called kidzone.
- [Internet & Computing](#) - Contains best practice examples of how teachers are integrating internet and computer technologies into curriculum and teaching programs.
- [ICT In Curriculum](#) - ICT In Curriculum is a UK site. The purpose of the site is to promote and support the use of ICT within different subject areas.
